KWH used

To avoid a 1.50% Late Payment Charge being added to your bill, please pay the **Amount Due** by the Due Date.

Messages

Your current **PRICE** TO **COMPAE** for generation and transmission from Toledo Edison is **listed below**. In order for you to save money off of your utility's supply charges, a supplier must offer you a price lower than Toledo Edison's price of 9.53 cents per KWH for the same usage that appears on the bill. To review available competitive supplier offers, visit the Public Utilities Commission of Ohio's "Energy Choice Ohio" website at www.energychoice.ohio.gov. **Residential Service - 2700022117 - 9.53 cents per KWH**

The information below shows specific charges for the costs of energy. These efficiency, peak demand reduction, and renewable energy. These charges are not new, but are and previously were consolidated with other charges on your bill.

Energy Efficiency	483 KWH × 0.000000	\$0.00
Peak Demand Reduction	483 KWH × 0.000000	\$0.00
Renewable Energy	483 KWH x 0.001511	\$0.73

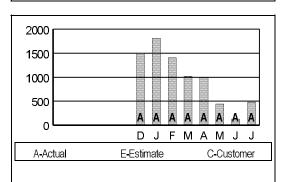

Your next meter reading is scheduled to occur on or about Aug 15, 2024.

You may be able to access more detailed energy usage information from your smart meter, which can help you better understand your electricity use and make informed decisions on how to manage and control your electricity consumption. View "My Usage" on the Home Energy Analyzer tool at energysaveOH.com to access this information.

As of June 1, 2024, residential customers who receive electric service As of June 1, 2024, residential customers who receive electric service through the company's Standard Service Offer will see new prices for Rider GEN, as approved by the Public Utilities Commission of Ohio (Case No. 24-0445-EL-RDR). On an annualized basis, it is estimated that the change in Rider GEN will result in an average decrease of approximately \$22.06 on the monthly bill of a typical residential

customer using 750 kWh and taking generation service from the company's Standard Service Offer.

For a brochure describing your customer rights and obligations, please call our Customer Service phone number.

For your safety and the safety of our crews, when using a generator follow the manufacturer's installation and operation instructions. Never connect a generator directly to your electrical system without an isolation device installed by an electrician. Otherwise, a fire could start or an employee restoring your power could be seriously injured. We suggest plugging lights/appliances in the outlets on the generator unit.

Tree branches and shrubs – and insects that nest in vegetation – can make it difficult and, at times, unsafe for our employees to read your meter. Please be sure your meter is easily accessible by clearing the path to it and the area around it.

Explanation of Terms

Bypassable Generation and Transmission Related Component -Charges for purchasing power and delivering it through the transmission system. These charges are avoided when switching to a Certified Retail

Cost Recovery Charges - Recovers previously incurred costs, including PUCO-approved Phase-In Recovery Charges TE collects from all customers on behalf of TE Funding, LLC which owns the right to impose and collect

such charges. **Customer Charge -** Monthly charge that offsets costs for billing, meter reading, equipment, and service line maintenance.

Distribution Related Component - Charge for moving electricity over

distribution lines to a service location.

Economic Development Component - Charges related to economic

development support.

Estimated Reading - On the months we do not read a meter, we calculate

the bill based on past electrical usage.

KWH (Kilowatt Hour) - A unit of measure for electricity usage equal to 1,000

watts used for one hour.

KWH Out - Received - Killowatt-hours of electricity that the customergenerator facility feeds back to the Company's system.

KWH Used - Delivered - Kilowatt-hours of electricity supplied by the

Invoice Number: 90677690275

Company's system to the customer-generator facility.

Late Payment Charge - A charge added to the bill on balances owed after the Due Date

Price to Compare (PTC) - The utility's price per KWH for bypassable generation and transmission; can be compared with the price offered by another supplier.

QR (Quick Response) Code - A square, black-and-white image that can be read by a mobile device using a barcode scanner or camera to direct you to our website at http://www.firstenergy.corp.com/log_in.html.

Residential Distribution Credit - A distribution credit for a qualifying rate

applied to all usage over 500 KWH during the winter billing period.

Residential Non-Standard Credit - A generation credit for a qualifying rate applied to all usage over 500 KWH during the winter billing period.
